LANGUAGING
LANGUAGE

role of conversation

social cooperation = coordinated actions

coordinated actions require agreements

agreements require conversations

conversations require language

what is learning?

context — agreement to converse in order to learn

language — common understanding — new understanding + expression of lang

exchange — ⊖

agreement — feedback Q&A (testing)

action — simulating build prototyping

DESIRE TO CONVEY KN — DESIRE TO ABSORB. KN

what is learning?

context

language

exchange

agreement

action

what is learning?

context finding

language starting

exchange interacting

agreement sharing

action coordinating

what is learning?

context finding a way converse, in order to learn, now

language starting in a vocabulary that is shared

exchange interacting in back-and-forth that changes beliefs

agreement sharing understanding about what is understood

action coordinating behavior to confirm understanding

what is school?

context ~~place~~ location organization classroom
language curriculum
exchange teacher - student
agreement Q+A testing
action construction play

Pic of school lesson?

WHAT - DESCRIPT COMPREHENDING!

HOW - PRESCRIPT ~~DOING~~ OPERATIONS/DOING

what is school?

context fixed location, time, curriculum, classroom

language pre-stablished vocabulary in pre-defined curriculum

exchange “teacher” and “student” dialog

agreement qualitative assessment in class, quantitative in tests

action exercise, practice, performance

we can design the conversation

context ~~anywhere~~ — alwys EMPATHETIC
language ~~any~~ — alwys matched to PARTIC'S ~~context~~ culture
exchange ~~any (modality)~~ — alwys " UNCERT
agreement ~~any conjunction~~ — " ~~[illegible]~~ pref
action service + products
physical products

<report of something>

[illegible]

designing conversations

context “informal” opportunities found in the flow of living

language negotiated during the interaction

exchange free-flow of focus, ideas, possibilities

agreement loose & strict assessments

action participation in creation & exercise of models & prototypes

action

network conversations

context

language

exchange

agreement on-going check of understanding, even in each exchange

action

network conversations

context

language

exchange

agreement

action manipulation of models & "teachback"

network conversations

context	unencumbered by institution, location, time
language	shared enough to start, with wide-ranging diversity
exchange	free & inclusive, without prejudice to authority
agreement	on-going check of understanding, even in each exchange
action	manipulation of models & “teachback”

instrumented conversations

context peer matching begins from social graph and extends beyond

language diversity is bridged by translation tools, conversation interface

exchange software regulates uncertainty based on learning style

agreement wide-range of responses allowed for showing understanding

action software drives simulations & enables "teachback"

metadesign

metadesign

“The reality that we live arises instant after instant through the configuration of emotions that we live, and which we conserve with our living instant after instant.

metadesign

“The reality that we live arises instant after instant through the configuration of emotions that we live, and which we conserve with our living instant after instant.

“But if we know this, if we know that the reality that we live arises through our emotioning, and we know that we know, we shall be able to act according to our awareness of our liking or not liking the reality that we are bringing forth with our living.

metadesign

“The reality that we live arises instant after instant through the configuration of emotions that we live, and which we conserve with our living instant after instant.

“But if we know this, if we know that the reality that we live arises through our emotioning, and we know that we know, we shall be able to act according to our awareness of our liking or not liking the reality that we are bringing forth with our living.

“That is, we shall become responsible for what we do.”
